The week opened with a decidedly lower tendency, and later buyers chopped pers were unable to get liberal orders and packers evidently were determined to force prices to the farthest point possible to see what effect it might have on the country. Therefore salesmen were unable to regain much of the decline, even when the conditions elsewhere justified a better market here, and the result was rather an unsatisfactory trade the latter part of the week. From Monday to Wednesday heavy hogs | 676 quarters of beef. sold off 45c, while ordinary light kinds at the low point were nearly to lower than the close of last week. From Wednesday to the close of the week the market was trregular, some sales being registered at an advance in prices, while others showed more weakness, and at the extreme close of the week there was not much change in prices compared with Wednesday except there was a little closer range on account of an absence of the very common light hogs that had been bringing the lowest prices. The highest price paid for hogs this week was \$6.85 and the lowest top price was 16.50. The receipts to-day were of comparatively fair volume for Saturday, and the quality, if any different, was better than the average for several days. At least there was no common light hogs reported at extreme low prices. Rumors of Northwestern Deals. [Meyer & Kiser's Telegram.] NEW YORK, Oct. 12 .- The trend of prices for Americans in London was evidently not governed by the strength of our market at the close yesterday. London quotations,

was 1/2 below our closing, were about parity. Steel and Copper stocks there were firm. The copper market also showed improvement. Commission houses were prominent, while the selling came principally from weak and small holders. One factor in speculation is the report current that No. 14, 4.05c; standard A, 4.90c; confection-Standard Oil interests have shifted their market position and are now ranged on crushed, 5.60c; powdered, 5.20c; granulated, the bull side of the market. Naturally this 5.10; cubes, 5.35c. has influenced a great many traders to take the long side of the market. Traction stocks did not show much strength, there being a strong disposition to realize Further belief exists that the reported Northwest deal is in course of formation of a proprietary corpostion, or some other deal. While these reports lack official confirmation, the fact exists that financiers closely identified with one of the leading financial interests in this deal are quoted as saying it is in progress, but has not fully developed. The market kept its strength pretty near all morning, especially when the bank statement was issued.

FAIR DEMAND FOR WHEAT

THAT CEREAL CLOSES AT A FRAC-TIONAL ADVANCE.

Provisions Also Make Good Gains, but and Oats Finish the Day at Declines.

CHICAGO, Oct. 12 .- Scarcity of offerings and a fair outside demand for wheat gave an upward turn to markets to-day and December wheat closed a shade higher, corn %c down, oats a shade lower and provisions 10c to 171/2c higher.

It has been said that Admiral Dewey was made prisoner during the civil war at the time the gunboat Mississippi was destroyed by the Confederates. The admiral says this is not true. "I was not captured," said he, when asked about the matter, when the Mississippi was run aground and burned. About 150 of our men were cap-Atchison and Pennsylvania is being revived, weights, 231/20241/2c; acid, 231/20241/2c. made several times lately and am glad to and Sunday papers probably will be filled Beef steady; family, \$11.50/212; mess, \$9.50 say that it is entirely incorrect. .. The Wonder of the Age .. THE "OMEGA" ODORLESS SANITARY GAS STOVE

A decided innovation in gas heating. Unique, scientific. Destroys injurious prod-ucts and organic matter by intense heat ENGLISH .- From opinion of George Rudd Thompson, F. E. C., F. M. R. S., etc., Public Analyst, Newport, Eng. 'In my opinion the maximum of heat is evolved by the combustion of the minimum of Gas, without any smell or undue dryness of atmosphere. The theory of stove is, in my opinion, perfect and the result ditto. The percentage of carbonic acid is not sensibly raised in a closed room after

lighted with it, and am quite in a position to recommend it for offices, sick-rooms, On exhibition and for sale by
